**Short-Lite by Samsonite**  
**Luggage Collection Reinvents Lightweight**

For more than 100 years, Samsonite® has been pushing the limits of innovation, creating many of the world's strongest and lightest suitcases. In the search of the ultimate balance of lightweight, organisation and space in bags ideal for short-haul trips, the iconic new **Short-Lite™** range of luggage was born.

To meet overwhelming consumer demand for lighter luggage that bypasses hefty fees at the airport, each aspect of the Short-Lite collection design was customized to ensure you can pack everything you need without tipping the scales. Samsonite is thrilled to usher in a new era of easy short-haul travel. The lightest Samsonite luggage collection ever; it is versatile, durable and doesn't give in on features, or on style. Each model comes in a contemporary style with bold trendy materials, a well-organised interior and smart details. Best of all the ultra-lightweight collection will allow you to zip through the lines and up to your terminal with ease.

The ultra-light weight spinner 55 and upright 55, an unbelievable 1.6kg, features a convenient ticket pocket which allows the user to store the most essential travel documents such as a boarding pass and passport. With this feature, you won't be stuck digging through pockets to find your boarding documents ever again! What's more, the pocket is perfect for housing all your small items – like your watch or mobile phone - that can't be carried through the security checkpoints, but need to be easily accessible.

Further, multi-directional wheels allow for quick turns and easy mobility, so there is no stress when you're dashing to a faraway terminal. A combination padlock accepted by TSA on wheeled Short-Lite bags provides added security for precious belongings and allows your luggage to easily pass through security checks when travelling to the US.

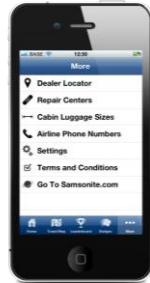

BY YOUR SIDE

Revolutionize your luggage with the Short-Lite™ collection; designed for all short-haul travellers, whether you are travelling to New York for a business trip or weekend city break to Rome. Available in stylish Plum or Platinum Grey, the Short-Lite collection provides sleek contemporary style, extremely light weight cases, essential features and durability at a reasonable price point.

Samsonite also offers consumers the award-winning Travel Miles app, a one-stop location for today's on the go travellers which provides regularly updated baggage restriction details for most airlines, so travellers can avoid getting caught out at check-in. The app also enables users to track where they've been, update friends and family on their location and even includes a Samsonite dealer locator, making for a painless search for the perfect suitcase companion.

Unique to the market, the Travel Miles app is free to download, user friendly and practical, the perfect companion to all travellers from families to students and a great tool for those travelling on business.
